

**California Regional Water Quality Board
San Diego Region
Supplemental Environmental Projects
Not Mapped**

**ACL Order: R9-2000-0103 City of San Diego
Beach Valuation Project**

Objective: To develop an easily used mathematical model for the valuation of beaches using beach attendance data, beach characterization, and a beach user survey to enable calculation of the number of dollars lost per person per day when a beach in San Diego is closed.

- City of San Diego/Santa Monica Bay Restoration Foundation
- Pacific Ocean Watershed
- \$262,500

**ACL Order: R9-2001-0173 Encinitas Ranch
Storm Water Workshops**

Objective: To educate contractors, developers, and municipal inspectors of the Construction Stormwater regulations.

- Encinitas Ranch, L.L.P.
- Batiquitos Carlsbad Hydrological Unit
- \$14,000

**ACL Order: R9-2005-0224 Southern California Coastal Waters Research
Project**

Regional Marine Monitoring Program for Southern California Bight

Objective: To supplement the ongoing monitoring program being conducted within the Southern California Bight.

- Southern California Coastal Water Research Project
- Pacific Ocean Watershed
- \$4,500

**ACL Order: R9-2005-0229 City of San Diego
Water, Sediment and Biota Monitoring**

Objective: To enhance monitoring of water, sediments and biota in marine coastal waters, bays, lagoons and estuaries in the San Diego Region.

- San Diego Region
- \$28,500

**ACL Order: R9-2005-0173 Metropolitan Transit System
Water Quality Improvement Project**

Objective: To improve water quality through a project within the San Diego River watershed to be presented to the Regional Board Executive Officer for approval.

- Southern California Coaster Water Research Project
- San Diego River Hydrological Unit
- \$50,000

**ACL Order: R9-2008-0072 Buena Sanitation District
Buena Vista Creek Ecological Reserve Habitation Restoration**

Objective: To conduct restoration projects in Buena Vista Creek Ecological Reserve Habitat

- National Fish and Wildlife Foundation
- Buena Creek
- \$395,000

**ACL Order: R9-2008-0137 San Elijo Joint Powers Authority
Atmospheric Deposition and Harmful Algal Blooms**

Objective: To fund the atmospheric deposition component of the Bight '08 Survey through dry deposition, wet deposition during rain events, and calculation of atmospheric nutrient loading.

- Southern California Coastal Waters Research Project
- \$4,500

**ACL Order: R9-2008-142 San Diego Water Authority
River Blitz**

Objective: To expand and enhance the existing program to track locations of trash, invasive non-native plants, graffiti and water quality problems

- San Diego River Conservancy
- San Diego River Hydrological Unit
- \$7,500

Clean and Green Volunteers

Objective: To fund 12 clean-up events to remove trash along the San Diego River.

- San Diego River Conservancy
- San Diego River Hydrological Unit
- \$24,000

San Diego River Watershed Data Collections and Restoration Program

Objective: To develop a project to assist the implementation of the San Diego River Watershed Management Plan; San Diego River Conservancy's Strategic and Infrastructure Plan, and the establishment of a network of wireless environmental sensors.

- San Diego River Conservancy
- San Diego River Hydrological Unit
- \$40,000

ACL Order: R9-2008-0144

Harmful Algal Bloom Investigation

Objective: To fund a harmful algal bloom study as an element of the Atmospheric Deposition Component of the Bight 2008 Survey

- Southern California Coastal Waters Research Project
- Pacific Ocean
- \$37,500
